

Revoria Flow PC31 Print Server

Innovative automation & efficiency.

The Revoria Flow PC31 Print Server harnesses AI automation, powerful processing, and precise color management to unlock your Fujifilm Revoria Press PC2120's full potential—enabling faster, high-margin print production with CMYK plus up to two specialty embellishment colors for premium, scalable results.

Make more of what matters...

Premium applications: Support for eye-catching, profit driving jobs using CMYK plus up to two specialty toners: Green, Pink, Gold, Silver, White, Clear, or Textured Clear.

Reliable throughput under demand: Maintain production speed and stability even with complex files.

Color precision: Advanced tools and automated workflows support brand-critical and specialty applications.

Grow your business: Confidently take on premium jobs and bigger contracts.

Key features:

AI-driven optimization automatically analyzes documents and suggests the best image quality settings—such as text/line enhancement and automated color separation—so operators can effortlessly achieve superior output.

Built-in color libraries make it easier to enhance jobs provided and meet customer-specific color requests right at the press.

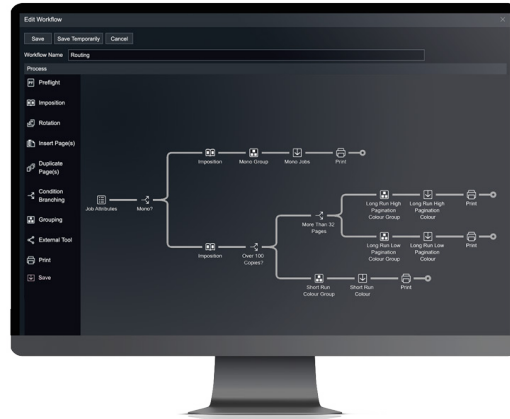

Automatic image quality adjustments including gradient correction, edge enhancement and bold text definition ensure reliably excellent output, job after job.

Key specifications:

Revoria Flow PC31

Processor	Intel Xeon E-2388G Processor 3.2 GHz
Operating System	Windows 11 IoT Enterprise LTSC 2024 (64-bit version)
RAM Memory	64 GB (Max. 64 GB)
Disk Drive(s)	System: 3.84 TB (SSD) Spool: 3.84 TB S x 2 DVD Multi-drive
APPE	APPE v6.2
Dimensions (WxDxH)	178mm (7.0") x 547mm (21.5") x 457mm (18")
Weight	19 kg (41.9 lbs.)
5th / 6th Color Support	Included
Supported Presses	PC2120 / PC2120S

Add prepress automation to your print server.

Our optional Revoria XMF PressReady Lite software allows smaller shops to automate complex prepress tasks from one spot. It preflights files to catch and correct issues like low-resolution images, RGB color use and missing trim or bleed settings. It also groups similar jobs to optimize production and supports single-press setups with enterprise-level automation.

The result is less manual intervention, fewer errors and a standardized, high-quality workflow ready to help you make more in less time.

Revoria XMF PressReady Lite automatically:

- **Checks** supplied PDF files
- **Fixes** common issues found in PDF files
- **Groups and imposes** jobs for production
- **Generates email notifications** when issues are found
